

International Symposium on Food & Feed Extrusion

When: August 7 - 8, 2025

Where: Werribee, Victoria, Australia

The Symposium will bring together industry, academia, and government stakeholders to explore the latest in extrusion technology. This two-day event features keynote presentations, technical sessions, and industry showcases on topics including ingredient functionality, byproduct utilisation, and commercial innovation.

Join us to connect with experts, share ideas, and drive progress in extrusion technology
