

5th Wager & Brown Field Workshop on Layered Igneous Rocks

- June 22-27, 2026: Field trips to either the Youanmi Terrane including Windimurra layered intrusion or Western Pilbara including Munni Munni layered intrusion
- June 28, 2026: Workshop at CSIRO, Perth, Western Australia (WB workshop precedes the International Symposium on Mafic-Ultramafic Mineral Systems 2026)

This workshop invites everybody interested in layered igneous rocks to participate and to share & discuss new research. A day of talks and discussions on current issues in layered intrusion petrology, including nature (and existence?) or magma chambers, cumulus processes, crystal nucleation and growth mechanisms, genetic models for chromitite and PGE reefs

Macrorhythmic modal layering with magnetitites in the Windimurra intrusion
