

CSIRO SAMAM-CES

Self-assembly meets additive

For durable supply chains & transformative manufacturing
Cutting edge symposium

Clayton, 29 Nov to 1 Dec 2022

Why become a sponsor

- Brand exposure – CSIRO Cutting Edge Symposium on Self-Assembly Meets Additive Manufacturing will be the first meeting of its kind and will explore the cutting edge in precision manufacturing, where self-assembly meets additive, with exiting opportunities for a range of industries across Australian manufacturing
- Face-to-face conversation with key decision makers and people with the buying power
- Direct interaction with scientists, researchers, and professionals eager to source products and equipment to help them in their research
- Establish new business relationships or build on existing ones
- Generate real time leads for business growth
- Build brand awareness and recognition to a targeted audience
- Brand alliance – align your brand with CSIRO cutting edge research, technology, and critical research
- Showcase your products and services to your target audience where your target audience is keen to learn and receptive to new ideas
- Prominent exposure on the official conference website
- Include your logo and company profile in our conference program
